Action taken report for the feedback taken on central facilities

Dt. 13.05.2022

Student feedback is collected once every semester on the facilities provided by the college. While feedbacks on class room and laboratory facilities are collected by the respective academic departments, the IQAC collects the feedback on other facilities. The students rate the facilities on a 5-point scale. The aggregate of the score for each facility, expressed as a percentage, is indicative of the degree of satisfaction of the students with the facility.

A score of 70% or less is taken to represent dissatisfaction of the students, calling for a more detailed analysis to determine the underlying causes. In respect of library, transport, sports/games, canteen facilities, maintenance and upkeep of college premises, including washrooms, the departments concerned also collect the student feedbacks separately, analyze them and take corrective action, where found necessary. It is found that during the last three years, the student feedbacks on facilities have been quite satisfactory, overall. However, the surveys have thrown up some suggestions for improvement made by a few students. Even though such students were quite small in number, cognizance was taken of such suggestions also. The departments considered the suggestions and where warranted, took appropriate measures to address the students' concerns. The rating of facilities given by the students for the academic year: 2021-22 is presented in the following tables:

Corrective actions taken, based on suggestions, or concerns of the students is provided herein.

1. Canteen facilities:

- Increased the number of serving and cleaning staff to provide better service during lunch time to avoid rush in the canteen.
- Additional space is created for seating during lunch timings.
- Provided enough seating arrangements for both Staff and Students.

2. Transport facilities:

To reduce congestion in the college buses.

- Four new buses are purchased for meeting the strength of students boarding the buses in different routes
- An additional person is appointed to look after the maintenance of buses which ensures end-to-end check of working condition of the buses on day-to-day basis.

3. Sports:

It is planned to allocate more space in the New Building complex for the modern GYM and some more in door games.

4. Class Rooms, Laboratories and other Infrastructure facilities
