BOARD OF STUDIES MEETING

Dt: 15.3.2016

Venue: CAD LAB

Time: 3:10-4:00pm

Agenda: Analysis on Experts Suggestions on Autonomous Course Structure.

The following points have been Suggested by Experts Committee :

1. The external experts, suggested that the syllabus written for different subjects should be in detail and contain all topics to be covered in each unit.
2. The external experts, suggested that the text books given at the end of each subject, should be of standard books and cover all topics of the syllabus. They also suggested that the text and reference books should be written in the format, "The Title of the book, author name, publication , year and edition".
3. Dr. Sri Ram Venkatesh suggested , books for Engineering Mechanics, an additional text book by S S Bhavikatti, and for Thermal Engineering, a book by Yadav.
4. The external experts and staff members ,felt that the Engineering Workshop syllabus should cover all the trades of the Workshop, so that the students will be exposed to all trades.
5. Dr Sri Ram Venkatesh suggested that , the topic "Deflection of Beams" must be included in the subject Mechanics of solids as an additional unit.
6. The external experts suggested that , the two additional experiments should be added in Mechanics of Solids Laboratory.
7. The external experts suggested hat, the syllabus for Fluid Mechanics and Hydraulic Machinery should be modified.
8. Dr Sri Ram Venkatesh suggested that , " Synthesis of Mechanisms, simple machines, pulleys" should be added in the syllabus of Kinematics of Machinery subject.

9. The external experts and staff members, felt that "Assembly and Dis-assembly" both should be included in the syllabus of Machine Drawing subject.
10. The external experts suggested that, Metallurgy and Material Science Laboratory should be equipped with some Heat Treatment equipment.
11. The external experts suggested that, each laboratory should have facility to conduct twelve experiments.
12. The external experts suggested that, Metallurgy and Material Science subject should give more emphasis on Heat Treatment of Steels and initial introduction topics should be included in Engineering Physics.
13. Sri K.G.Reddy, Expert from industry, suggested that, more emphasis should be given to Temperature aspects in various Production Engineering Subjects.
14. Sri K.G.Reddy, Expert from industry, suggested that, MIG welding should be added to the facility in Production technology Laboratory.
15. Sri .K.G.Reddy, Expert from Industry, suggested that, tables for conversion of units should be displayed in all laboratories so that students will be conversant with units.

The above points should be updated in the course structure by the concerned course coordinators.
