Domain is very proud and treats server as its servant imaging itself as a king. The poor server works for the domain all the time like a servant to king. It does not think about itself and will always engage in doing work for its domain. The domain does not care the server and thinks that it is superior to it and governs it like a boss. The server is unaware that domain cannot work without the server so it works as a slave to the domain.

In general, server maintains a directory of domain names and translates them to IP addresses. This is necessary because, although domain names are easy for the people to remember, computer access websites based on the IP addresses but not basing on the domain names. This is used to access the internet, a server computer hosting a website or the website itself.

The problem is not the technology or the instrument but in the use made by it. we will spend lot of money for nothing and neglect our health. The theme of the picture is not the scanner or anything, it is about the foolish people who spend their time and money for unnecessary enjoyments and don't take care of their health

From this picture we can understand that the situation happened in airport ,the person who gets in to body scanner when viewed by the security in his computer screen, he found that the person who is well dressed and seems to be rich and happy is unhealthy and sick.

These body scanners are used in airport for security since security problem is thorny

Body scanners, a gimmick harmful to health and intrusive to privacy. But in some cases it helps us to discover a reality to which we are not used to.

The picture shows how sometimes watching the Presidential debate can irritate people. The debates are held before the elections, especially in the U.S.A. Here, the person in the cartoon is watching the candidates trying to contradict the statements made by the other and trying to make a point. They proclaim themselves to be the people who can bring a change in the system and are trying to convince the public that they are the right candidate and deserve their votes. The person is fed up of their arguments and thinks that changing the channel is a better option.

"Ah! "I was in secluded place. You have disturbed me now . "I will kill you", the Lion roared. The mouse was frightened.

"Oh! King please leave me. I will remember you forever. Whenever it is necessary, I shall do you favor", the mouse replied.

"You are a small animal! "How can you do a favor to me? What can you do?

, The lion laughed and said. The mouse didn't speak.

After a few days passed a hunter threw his net and fettered the lion. The lion roared but could not escape as the ropes of the net was tightly tied. The hunter went to the town to bring a cart to carry the lion, the mouse came and saw the lion which was distressed. Immediately the mouse bit the rope with its strong teeth.

The lion was astonished to see a tiny creature doing a great job. The lion thanked the mouse for doing a great job. The mouse was also happy that it helped the lion. The lion then went to the forest.

If my principal has supernatural powers,i would ask him to construct our college in the middle of the ocean so that we can have peace environment to study.Instead of writing exams we would ask him to just scan and brains and gives us grades.I would ask him to transfer the knowledge(concepts) directly into my brain instead of studying.

I want my principal to get the great personalities to teach

me like prof. Einstein sir for physics,Swami vivekananda sir for moral values,Srinivasa ramanujam sir for mathematics,Shakespeare sir for English literature.And last but not the least I would ask him to give me some of his supernatural powers.

Responding to the quote

G.Sai Sharan

I completely agree with the quote,to achieve something commitments are to be done for sure.Commitment is nothing but to fix something blindly to be followed to achieve success.But without any commitment in life,one cannot achieve success. Without commitment, we only excuse and delay our work that is we just promise.When a person commits to something he never gives up the work he wanna do but without having a clear idea or commitment he only hopes for things to occur.So I conclude by saying that commitments should be made to climb the peaks of success.

My first experience of college is boarding a college bus, new routes. After entering into the college we noticed a spacious lawn in middle of the campus. The architecture of the college was very good. Finding our class was a difficult task but however at the end we found it, as soon as we entered into the class we introduced ourselves to our mates and started making friends. As soon as the bell rang, Faculty entered the class and introduced himself/herself to us. During our lunch hour we went to canteen, the food was quit good. later we were back to our classes, we went to lab and they taught us basics. Later in the evening before boarding a bus, seniors asked us to introduce ourselves and asked us to perform some task. (I was tensed at that time). And our day went well.

The suggestions given by our parents on the very first day will be very inspiring and motivate us to be bold. My first day starts with seeing the beautiful campus of our college. The beauty was worth praising. Here we are with lots of confusions and career building thoughts as it is a professional college. The thought of having new friends, new faculty, new classes, etc. made us very excited. RAGGING this word will surely make a fresher panic. This was the place where we experienced it. Everyone call it a ragging but i call it as a interaction between senior and junior. Hearing about fests in engineering colleges made us feel happy.

Meeting new friends, talking to them was tensed but could manage it for the first day. Introducing in the class sessions will make us to know about each other. Knowing the new

subjects and attending labs were really a good experience on the first day.

i agree with the statement. sometimes commitments are made but we fail to plan it and implement it. when promises are made based on commitment we should keep up those promise and prove it. just having hopes on it is not enough. we should plan it accordingly.

I would like to describe about soft skills classes which are conducting for us. Soft skills are nothing but improving our communication skills. relationship management, team building or teamwork, creative thinking, reading skills these all we have learnt.

These classes are really useful in improving our speaking skills, listening skills by participating in activities with interest. we can know the relationship and what team work is? I really thank our college management for implementing this type of courses. If we actively participate and attend these classes with interest then definitely we can come up as a good speaker wherever we go. I felt really interesting and happy in attending these classes and being a part of it.

I agree with the statement,but not in all situations because commitment is nothing but fixed to some work or an agreement.The statement is true when we consider students

For example:If student have an clear idea about their aim,then we focus on our aim and prepare a plan to achieve our goal.but in a situation where there is a need of immediate commitment ,it may be risky.when there is is no commitment in our life,at that time there is a chance that promises and hopes satisfies us in short period of time but not in long run.

Education in INDIA is going worse

G.Sai Sharan,13R11A0417,ECE-3A

Education in INDIA is based only on the theoretical knowledge by which students can't analyze how the theoretical knowledge should be related to practical knowledge. Students mainly in INDIA are very much attracted to go to foreign universities do pursue their masters, the reason behind this is there is no quality education in INDIA. The foreign universities taking this as an advantage attracting many students and using their minds to develop their nations. This is the main reason that our country is still developing in terms of technology. In INDIA education is also considered as a business by which many people who are rich establishing many institutions but failing to provide quality education. So by this education is going worse, and the institutions are not providing good knowledge there are just making the students to mug up the answers instead of understanding the concepts and are spoon feeding the students. These things make our education going worse and making the students to have no knowledge regarding the subjects and concepts related to the subjects.

Nature is the most precious and valuable gift from the god to live our life on the earth. Today in modern technological world so many inventions are launching without advantages and disadvantages to the nature. Everyone have been blessed with the true love of god in the form of peaceful nature. It has some transformative power which changes our mood. So I conclude that we should protect our nature without causing any harm to it.

ISRO is the space agency of Indian government headquartered in the city of Bengaluru. Its vision is 'to harness space technology for national development, while pursuing space science research and planetary exploration'. It is formed in 1969. It is managed by department of space, which reports to Prime Minister of India. ISRO built its first satellite, Aryabhata launched by Soviet Union on 19th April 1975. ISRO sent one MARS Orbiter on 22nd October 2008 which successfully entered MARS Orbit on 24th September 2014, making India the first Nation to succeed in its first attempt, ISRO the fourth space agency in the world as well as the first space agency in Asia to successfully reach Mars orbit. ISRO has carried out 75 spacecraft missions, 46 launch missions. 51 foreign satellites have been launched by ISRO's launch vehicles, and 28 ISRO satellites have been launched by foreign launch vehicles. As of October 2015, ISRO has agreed to launch 23 foreign satellites of nine different nations including Algeria, Canada, Germany, Indonesia, Japan, Singapore and the US. The prime objective of ISRO is to develop space technology and its application to various national tasks. The Indian space programme was driven by the vision of Vikram Sarabhai, considered the father of the Indian Space Programme. So we can conclude from this article is that the main goal of ISRO is to develop space technology

How messy problems can inspire creativity?

G. Sai Sharan, ECE-3A, 13R1A0417

- We have a bad opinion that when we get a hurdle we lose hopes on the work we do.
- But when we get problems in a work these problems makes us think over and over for a good solution.
- People don't realize that when they get hurdles while working on something the output of that would be very good. The video says that when you face so messy problems while working it improves the result of the product, response and creativity comes out would be very good.
- People should focus more on the problems they get and should work on that and they should never give up until they overcome the problem.
- And there are several examples given which proves that messy things can improve the creativity and they are a huge success at the end.
- It also says that people who are working in groups who are friends they enjoy the work and at the same time they work. And this work is not as effective as the group which are having strangers rather than friends. This happens because the group with

strangers concentrate more on the work rather than enjoying, and the result they get is a very effective one.

- So people who get hurdles in their way are suggested to focus on the problems and move on, all they need is a creativity which comes out for sure when we face problems.
- So, Hence by the examples given in the video prove that messy problems bring out creativity.

People mostly the youth has goals like to earn money or to get fame in the society. This is concluded by the survey and it's true that every youth dreams to get money and fame in their life to lead a happy and successful life. But from the Harvard adult study, these people have been researching 724 people since past 75 years.

The Harvard researchers have been researching on these people from their teenage and they got to know the results that money and fame are not required to lead a happy life. The results of the survey conducted by the Harvard researchers shock the youth. The results were like this people who have maintained good relationships are the happiest people in the future and these are healthier and are satisfied and are very happy. And also there are other stages like those who have good relationships with their family members and friends are very happy and those who are isolated i.e. lonely people may not live a happy life. The good relationships keep the brain healthy and keep people happy.

And the researchers conclude that to live a good life money and fame doesn't matter what matters is having good relationships.

It was an experience for the students to go round unclean and unhygienic in their surroundings and enlighten the inmates about the importance of cleanliness and sanitation for making India 'A Dream India.' Keeping surroundings clean alone doesn't work, the sense should be sustained in the minds of people. Raising slogans will not solve the problems but realizing what is to be done will make a lot! The programe was successful in creating awareness among students as future torch-bearers. Kudos MODI

Report on Training given to IV year students
27th July, 2016

This is an exclusive report which envisages the future of 260 job aspirants. The purpose of this report is to give a brief summary of the rigorous training given to Final year students on requisite topics.

The performance of the job seekers needed enhancement in the areas of creative thinking and replenishing it in their written skills. The training was productive in materializing the dreams of the job seekers. The training was significantly impulsive not only in dispensing knowledge but also making the students put themselves on pile of files.

Hectic schedule of 6-7 hours on 24th and 25th July 2016 was eclectically handled by the co-ordinators of Centre for Soft Skills Development.

Report on Tree Plantation campaign

NSS Unit and Eco Club of GCET jointly organized a mega tree plantation program at its campus on 11th JULY 2016 as part of "Telangana Harithaharam" a tree plantation program launched by Government of Telangana.

The program inaugurated by G.R. Ravinder Reddy, Secretary - GCET, Dr. S. Udaya Kumar, Principal – GCET, K. Somasekhara Rao, Dean, Student Affairs- GCET, P. Guruva Reddy, Inspector of Police, Keesara Mandal, M. Anantha Chary, SI, Keesara Mandal, staff of GCET.

It was attended by HODs, Faculty members, NSS committee members and more than 30 student volunteers

Inspector of Police, Secretary and Principal, GCET addressed the gathering by highlighting the need & significance of NSS activities, combined participation of student & faculty in Social Service to build a better society where they understand themselves in relation to their community and rising concern about continuous environmental degradation and its adverse impact on entire human kind.

Under the said programme, NSS volunteers planted 150 saplings of different varieties viz ornamental, shadowing and fruit bearing trees. The students also placed bricks as barricades and each student took the responsibility to nourish and maintain the allocated plant. The committee decided to proceed with the same inspiration, enthusiasm and zeal to enhance the beauty of the college campus.

We thank the Management of GCET, NSS Unit, Volunteers and all other supporting staff of GCET for their cooperation and their efforts which made this program a huge success.

Report on Cancer Awareness and Stem Cell Collection Campaign

NSS unit in association with Youth for Seva (YFS), An NGO organized a cancer awareness and stem cell collection campaign at the campus on 10/9/2016 at Seminar Hall-2, Block 1, GCET.

Cancer is a major public health concern in India and has now become one of the leading causes of death in the country. According to World Economic Forum (WEF), cancer is among one of the three greatest risks to the global economy due to escalating cost of care, the threat to productivity from death and disability and the effects of costs on household impoverishment.

The fear of cancer often arises out of ignorance and misconceptions, rather than any reality. Through its work at grass-root level, YFS came to realize that one of the main problems in India, in the control of cancer was lack of knowledge about lifestyles and societal practices that caused 70 per cent of its occurrence.

With the above set context the students and the faculty were given an awareness sessions on cancer and its root causes. It was also identified that most of the cancer patients can be cured by getting an appropriate stem cell which helps to regenerate blood from the healthy patient, to support this a drive was also conducted to collect stem cell

All the collected samples are preserved under appropriate clinical conditions, If the stem cell matches with any particular cancer patient then consultation with would be done and appropriate measures will be taken to collect the stem cells from the bone marrow of the healthy patient and transferred to the other.

There were about 10 student volunteers and faculty coordinators participated in the event and about 150 samples were collected from the students and other staff members.

We thank the Management of GCET, NSS Unit, Volunteers and all other supporting staff of GCET for their cooperation and their efforts which made this program a huge success.

Report on Blood donation camp held on 4th Feb, 2017

Organized by NSS –UNIT

1. Every human being is a perfection of lord which means there is presence of lord is every mortal. So, serving every human being is serving lord. Every drop of blood is precious we transformed this idea and arranged blood donation camp on 4th Feb, 2017 by LIONS CLUB, JUBILEE HILLS, in old seminar hall Block-II.
2. Dr. Sridher from BBR Blood bank, BALANAGAR has come with his team of 10 members with the required equipment for blood samples at 10.00 AM.
3. The NSS Unit has formed teams with faculty coordinators and student volunteers and motivated the students to donate blood.
4. Over 250 Students have come forward to donate blood and after monitoring their general health checkup we could permit 184 students and staff to donate samples.
5. We thank our Management, NSS –Unit, Volunteers and all other supporting staff of GCET for their cooperation and their efforts which made this program a huge success.

Thank You,

Geethanjali College of Engineering and Technology
Report on Cancer Awareness and Sample Stem Cell camp held
on 4th Feb, 2017
Organized by NSS –UNIT

NSS unit of Gcet has conducted a one day campaign on Cancer Awareness and sample stem cell collection in view of World Cancer Day on 4th Feb, 2017 in association with Dhatri Foundation, Hyderabad, in Open Auditorium Block-II.

The NSS Unit has formed teams with faculty coordinators and student volunteers and motivated the students towards awareness of Cancer and its impact on human lives.

Over 150 Students have come forward to give the samples for Stem Cells and after monitoring their general health checkup we could permit 145 students and staff to donate samples.

We thank our Management, NSS –Unit, Volunteers and all other supporting staff of GCET for their cooperation and their efforts which made this program a huge success.

Thank You,

Program Officer
